City of West Jordan David R. Brickey City Manager 8000 South Redwood Road West Jordan, Utah 84088 (801) 569-5100

Dear Mayor Riding and Council Members:

It is my privilege to present the City of West Jordan 2018-19 budget. This year's budget process differed from previous years because it also included a Truth in Taxation hearing held August 14, 2018, which resulted in an 18% property tax increase. This process extended the overall budget development and generated much-needed revenue that is being used to add five police officers, nine firefighters, increase compensation for our crossing guards, and add an additional prosecutor to more effectively convict criminals and keep them off our streets.

Prior to this increase, the city had only raised property taxes twice in the last 30 years: in 2012 and 1988. With inflation averaging 2.7% per year over the past 30 years, and the costs to provide services to our growing city constantly on the rise, we continue to look for ways to carefully balance expenditures with projected revenues. While no one likes paying more in taxes, residents have not indicated a desire to have their services cut.

With the exception of the Truth in Taxation process, this year's budget developed as in years past. In January, the City Council set goals at the Strategic Planning session. Then department directors worked closely with the City Manager to develop budget goals that aligned with City Council goals while balancing proposed expenditures with fiscal constraints. Hearings were held to allow public comment. After hours of review, number crunching, and fine-tuning, the budget came before the City Council for approval and a decision was made to move forward with the Truth in Taxation process. After that process concluded, any desired budget adjustments were made, and the final budget book was compiled.

#### **Budget Highlights**

The city continues to experience steady growth. From January-September, the city issued 1,415 building permits, which represents \$200 million in construction valuation, and 744 residential units. Growth presents challenges, but it is good news for the city's many businesses that add to our tax base and provide goods, services, and jobs for our residents.

One recent business addition to our city is Aligned Energy, a leading data center provider. They celebrated the opening of their new 294,000-square-foot facility in October. Aligned purchased and renovated the Fairchild Semiconductor building at 9000 South and 3200 West. We are excited to see this building repurposed and look forward to welcoming their new tenants.

Lucky Supermarkets will be opening spring 2019 in the former Albertsons at 6936 S. Redwood Road. At Home, a home décor retailer, will be taking the place of Sears Grand that went out business in the fall and is scheduled to open early in 2019, and the entertainment village at Jordan Landing is undergoing a significant remodel. We will continue to work to retain and attract quality businesses.

#### Revenues

We have seen a modest increase in sales tax revenue over the past fiscal year. This budget projects a 3.8% increase. Of the sales taxes collected from West Jordan businesses, the city is allocated 1% of the total 6.85% tax (or about 14.6% of the total sales tax). So, for every \$100 spent in West Jordan, \$6.85 in sales tax is collected, and of that amount, the city receives \$1.00. There are a number of factors, most outside our control, that could cause sales tax revenue to decline. These factors include another recession, national policies, national and global fiscal instability, changes in state legislative policy, or all of the above. This budget reflects an 18% property tax increase. We will continue to monitor revenues. Fees are also evaluated annually and adjusted as needed to provide critical services.

#### Expenditures

With a general operating fund of about \$62 million, the City of West Jordan expends more than half of that amount (53%) for emergency services alone (fire, EMS, police, etc.). Our police and fire departments play critical roles in protecting our community and providing a high quality of life and continue to be a top priority. With the addition of five full-time officer positions to the police department budget and nine firefighters, this raises the number of authorized police officers to 122 and 90 firefighters.

Other contributors to this year's budget include commitments to our city's infrastructure. This budget authorizes funding to improve our roads (\$14,604,551), our storm drain system (\$4,357,754), our water system (\$15,727,106), our sanitary sewer system (\$7,423,510), and our fleet (\$1,134,323). Funding for water system improvements is budgeted in part through bond proceeds.

#### **Moving Forward**

We have had a number of significant personnel changes this past year as several key staff members have retired or had opportunities that have taken them elsewhere. We have worked hard to rebuild our team, and I'm confident in the talents of my staff. We look forward to working together to provide exceptional services for our community. We are also looking ahead to the transition that is on the horizon as we prepare for the change of government in January 2020. As we work together, we will look to the *Budget Book* to guide the day-to-day operations of the city so we keep spending within revenue limits and focus on those services that contribute to our residents' quality of life.

Sincerely,

DutRDit

David R. Brickey City Manager

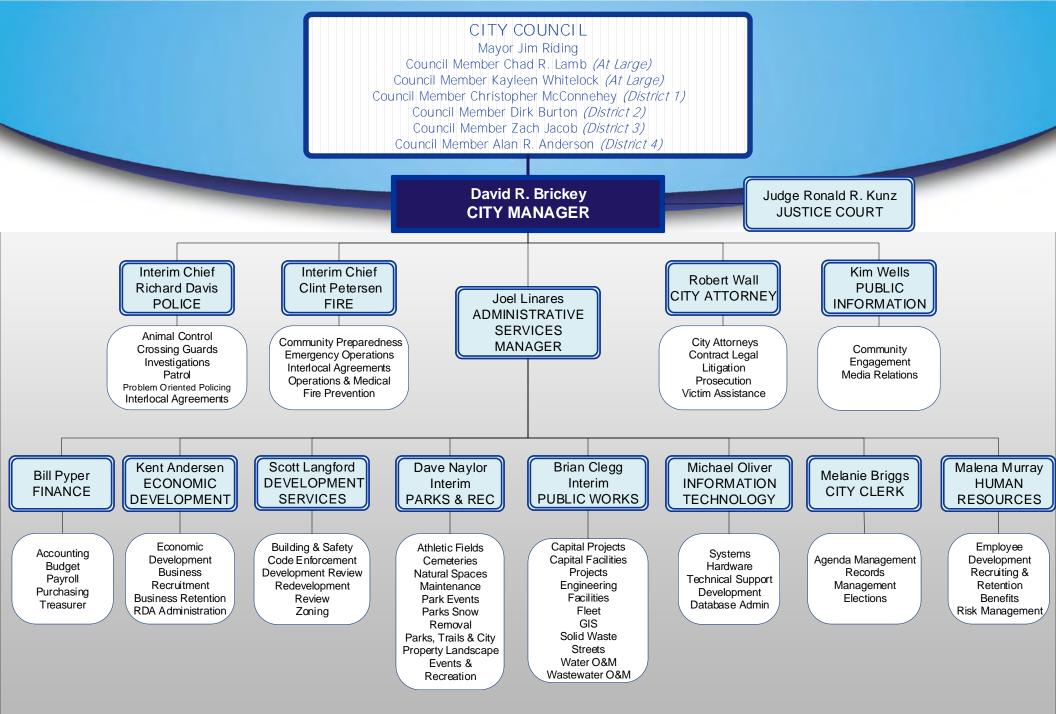

## **BUDGET HIGHLIGHTS**

Budget highlights for Fiscal Year 2018-2019 include the following:

• The City Council increased property tax revenues by \$2.2 million by enacting an 18% property tax increase through the truth-in-taxation process. The additional funding was used primarily for the following items:

0	Hiring nine additional firefighters	\$ 628,551
0	Hiring five additional police officers	567,971
0	Increasing crossing guard compensation	213,306

- The City implemented a 3.1% cost-of-living increase for employees.
- The City covered its share of the 8.5% increase in the cost of medical benefits for employees.

#### CITY OF WEST JORDAN FUND STRUCTURE OVERVIEW

The City of West Jordan uses 28 separate funds to facilitate its fiscal management and oversight responsibilities. The two major categories of funds are governmental funds and proprietary funds. The governmental funds group consists of three different types of funds: General Fund, Special Revenue Funds, and Capital Projects Funds. The proprietary funds group consists of two different types of funds: Business-type Activities Funds and Internal Service Funds.

#### **Governmental Funds**

These funds are intended to cover the various governmental responsibilities – either on a broad scale like the General Fund, or on a more focused scale like the various Special Revenue Funds and Capital Projects Funds.

- General Fund This is the City's largest single fund and covers the broadest scope of activities. It covers the general management and operations of the City, including public safety.
- Special Revenue Funds These funds each account for specialized activities, such as the various Redevelopment Districts and the various Special Improvement Districts.
- Capital Projects Funds These funds account for roads, parks, and buildings capital
  project activities as well as the fiscal support of those activities. Also, the CDBG
  Fund accounts for the various activities of the Community Development Block Grant
  programs.

#### Proprietary Funds

These funds are intended to cover substantial activities that emulate business enterprises as well as centralized services that benefit some or all of the various City departments.

- Business-type Activities Funds These funds account for the activities of the City's water utility, sewer utility, stormwater utility, secondary water utility, and streetlight utility, including capital projects; and for the solid waste collection and disposal operations.
- Internal Service Funds These funds account for activities associated with vehicle acquisition, operation, and maintenance and with risk management activities such as liability and property insurance.

#### 

#### A RESOLUTION OF THE CITY OF WEST JORDAN AMENDING THE SALARY SCHEDULE FOR CITY EMPLOYEES

WHEREAS, the City of West Jordan Municipal Code 1-9-5A outlines the personnel procedures and employee compensation system; and

WHEREAS, the City Council establishes annually the approved full and part time positions in all City Departments, and designates their respective pay ranges; and

WHEREAS, there has been the need to amend the previously approved salary schedule:

NOW, THEREFORE, IT IS RESOLVED BY THE CITY COUNCIL OF WEST JORDAN, UTAH:

Section 1 The City Council of the City of West Jordan hereby approves the amended salary schedule and compensation plan for all officers and employees in all classifications of employment provided in this resolution.

Section 2. That said updated classification and salary schedule are hereby incorporated and attached to this resolution:

#### Section 3. That said updated salary schedule and compensation plan shall be effective at the beginning of the pay period (06/24/2018) which includes 07/01/2018.

#### 1. Competitive Plus Advantage (CPA) Adjustments

"GfS Specialist I - range 52 moved to range 53.

<sup>16</sup>GIS Specialist II - range 56 moved to range 59

#### 2. New Positions

- <sup>24</sup>Victim Assistance Program Coordinator created range 53
- <sup>17</sup>Accountant II created range 661 approved by Council 09/13/2017
- <sup>17</sup> Real Property Administrator created range 72
- Assistant Real Property Administrator created range 66
- $^{2}$  Utility Maintenance Technician (3 positions) added range 41 approved by Council on 08/23/2017 under Wastewater Department
- <sup>37</sup>Community Preservation Director created range 83

#### 3. New Departments

- <sup>34</sup>Community Preservation Division created. Code Enforcement Department moved under this Division
- Grants moved to this Division from Development Division
- Business Licensing moved to this Division from Finance Division

- <sup>4</sup> "Ordinance Enforcement Supervisor C A L- range 68, reclassified to Community Preservation Director range 83
- <sup>11</sup>Community Preservation Administrative Assistant range 45, reclassified to Community Preservation Executive Assistant range 53 At-Will

Adopted by the City of Council of West Jordan, Utah, this Wednesday, July 25, 2018

**hin** Ridina Mayor Voting by the City Council 'NAY Alan Anderson Dirk Burton Zach Jacob Chad Lamb Chris McConnehey Kayleen Whitelock Mayor Jim Riding

## **GENERAL FUND REVENUES**

Summary	62
Detail	63

### **GENERAL FUND SUMMARY**

The General Fund is the primary operating fund for the city, accounting for almost half of all expenditures. Within the General Fund, public safety (Police Department and Fire Department) operations make up more than half of the budget.

The Parks Department and the Streets Division are the other primary operating groups accounted for within the General Fund. Also, the various administrative and support functions (finance, human resources, legal, information technology, etc.) are included in the General Fund.

Taxes are by far the largest revenue source for the General Fund, with sales tax being the largest single source.

## OFFICE OF THE CITY MANAGER

City Council	71
City Manager	72
Non-Departmental	73

## FUNCTIONAL SUMMARY - OFFICE OF THE CITY MANAGER

The mission of the Office of the City Manager is to enhance the quality of life in our community by implementing the policies of the City Council through the daily direction and coordination of city activities, fostering a spirit of teamwork and customer service among city employees, recommending policy changes to the City Council, and ensuring adherence to all applicable laws and ordinances.

The Office of City Manager provides for the primary administration of the city and includes the following programs:

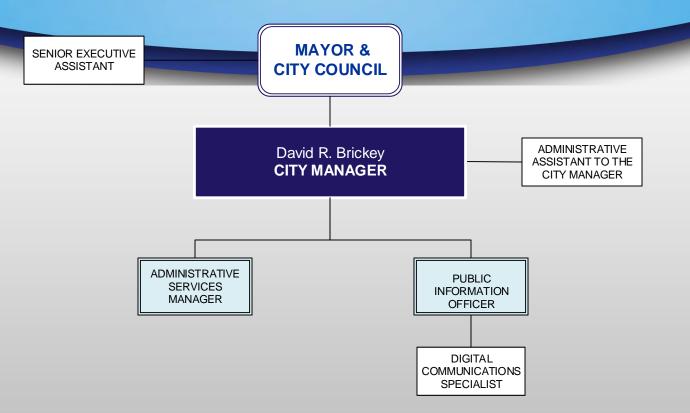

**City Council** – The City Council is comprised of the mayor and six council members. The mayor is elected at-large and serves a four-year term. Of the six council members, four are elected by district and two at-large. The council members also serve four-year terms. The City Council is tasked with providing policy and direction upon which all city actions, programs and priorities are based.

**City Manager/Council Support** – Lead the organization to excel in professionalism, responsiveness, innovation, and effectiveness. Establish standards of conduct, ethical behavior, compassion, and communication through example, coaching and respect. Support operations by removing obstacles and managing resources.

**Non-Departmental** – The non-departmental budget handles the few expenses that are organizationwide in nature and not allocated to specific departments or programs.

#### **ADMINISTRATIVE SERVICES**

The Administrative Services Department is comprised of the City Clerk's Office, Information Technology, and Community Affairs divisions. These groups provide support and services to other departments in the city as well as the residents.

Administrative Services includes the following programs:

**Agenda Management** – The purpose of the agenda process is a requirement by law as outlined in the *Utah State Code; Title 52, Chapter 4, Open and Public Meetings Act.* Assemble and process the City Council agenda packet information through scheduling and compiling the various documents required for City Council approval.

**Records Management** – Assist the public with GRAMA requests for public documents, as outlined in the *Utah State Code; Title 63G, Chapter 2, Government Records Access Management Act.* Establish and maintain a Records Management program addressing all official city documents, providing complete and accurate information in a timely, efficient, and professional manner.

Elections – Manage all legal requirements of the Municipal Election process.

**IT: Infrastructure, Systems, Phones** – Research, design, implement, maintain and monitor the following:

- Fiber optic, dedicated T1 and High Speed Metro-Ethernet and wireless communication lines
- Switches, routers, firewalls, web filters, spam appliance and telephone PBX
- Servers including files, email, print and applications such as Munis, CityWorks, Spillman, Coris, Prosecutor, ImageTrend, LaserFiche, GIS and others

**IT: Customer Hardware** – Install, repair, maintain and replace the following:

- 720 workstations
- 65 printers and faxes
- 33 copiers and scanners
- 660 desk/cell phones and 175 MiFi devices
- All network and systems hardware (i.e. servers and switches)

IT: Technical Support – Provide 24/7, 365 days-per-year technical support to:

- Resolve software/hardware malfunction
- Assist users on the use and operation of software programs and hardware peripherals
- Train users on new and upgraded software

**IT:** Software Development & Database Administration – Provide the necessary coding and software solutions to:

- Customize applications such as Munis, Spillman, Coris, Prosecutor, ImageTrend, GIS and others
- Research business needs and match with the best solutions available

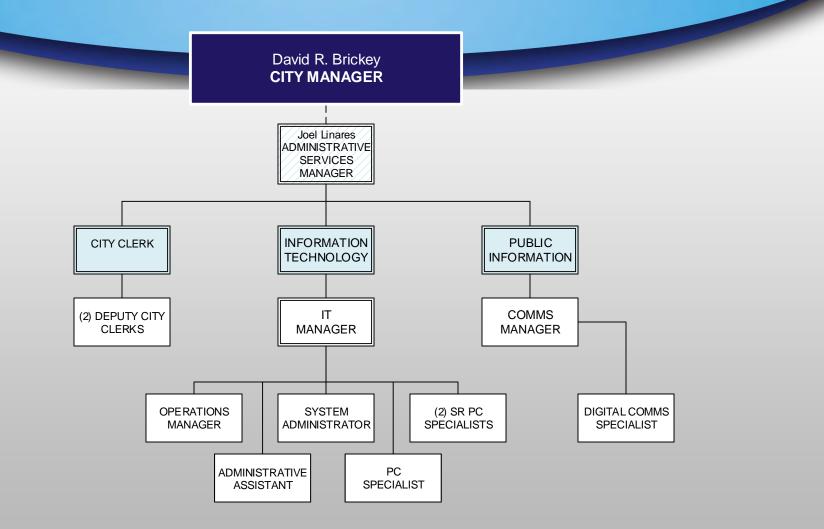

- Develop, design, and deploy applications such as city website, Munis, Intranet, Tyler Technologies reporting and others
- Develop and maintain 47 system databases

**Information Technology Fund** – This fund was reactivated to account for the acquisition of the new enterprise resource planning software system and to account for replacement of the various types of information technology hardware used in the different departments.

**Public Information** – The public information office serves as the primary contact for the public and media affairs. City marketing and communications are also developed and distributed through this office using a variety of methods including the city website, social media, digital signage, newsletter, utility billing inserts, etc.

#### FINANCE DEPARTMENT

The Finance Department provides centralized financial and accounting support to the various city departments and includes the following divisions:

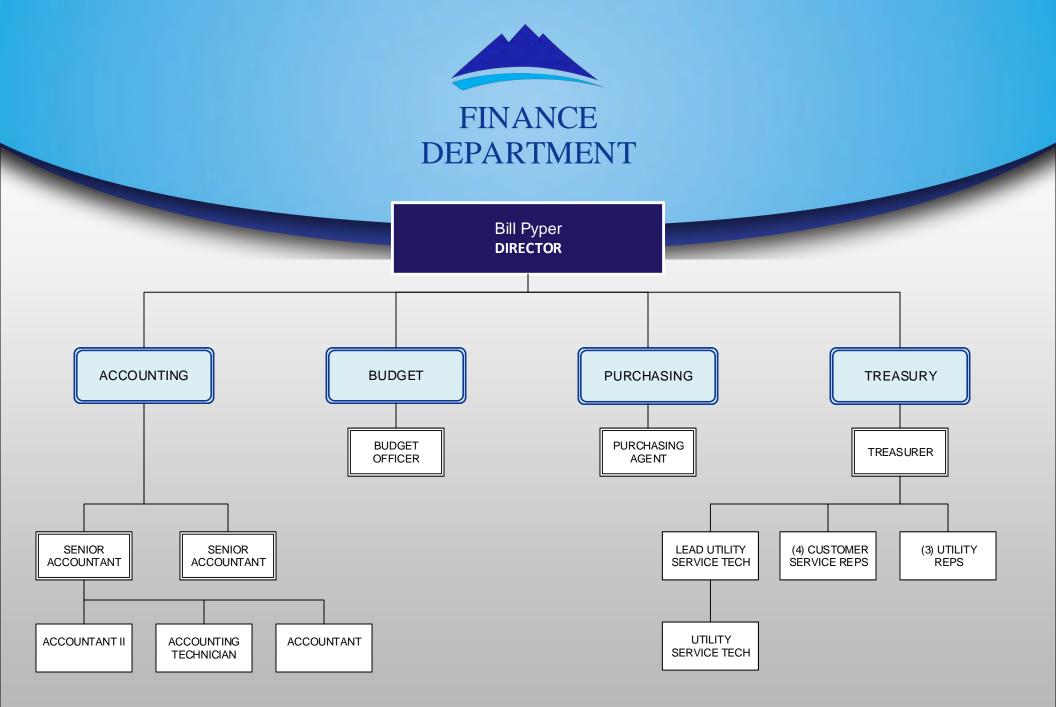

**General Accounting** – The primary purpose of General Accounting is to provide timely and accurate financial information using generally accepted accounting principles to internal and external customers. Accuracy is maintained through monthly reviews and reconciliations of the general ledger, subsidiary ledgers, and bank statements. General Accounting also provides support to other city departments including: purchase of fleet vehicles, cash flow projections related to capital projects, tracking impact fee revenues and expenditures, grant revenues and expenditures, and providing other financial information as needed.

**Treasury** – Customer Service Representatives receive payments and applications for utility services, business licensing, pet licensing and other city services. These other city services include revenues from the courts, police, development, animal control, parks, cemetery, and special events. Customer service processes more than 4,000 transactions per week, and also responds to about 1,700 calls each week. The Treasury division is also responsible for maintaining adequate internal control of city assets, internal auditing of cash transactions, banking relations, and the issuance of long-term debt.

**Budget Management** – The budget program facilitates the creation and maintenance of a balanced budget, as required by the City of West Jordan and the State of Utah.

**Purchasing** – Provides procurement services in support of the city's departments by helping them procure the goods and services they need to perform their missions, while ensuring they comply with the legal aspects of purchasing as mandated in the city's ordinance and policies.

**Utility Billing** – Utility billing maintains and reads city water meters, creates utility bills, researches and adjusts account balances, and responds to utility billing inquiries.

## **TRANSFERS OUT**

Revenues collected or fund balance held in the General Fund sometimes needs to be expended in another fund. The movement of these funds is represented as a Transfer Out from the General Fund.

## FAIRWAY ESTATES SPECIAL SERVICE RECREATION DISTRICT

This district is a unique taxing entity and the only one of its kind in the city. This type of district would typically be formed for one (or both) of two purposes:

- 1. to provide an enhanced level of park/recreation facility for the district over facilities normally provided in other areas of the city; and
- 2. to restrict access to the facilities from the general public.

Today's preferred approach to accomplish those same purposes for small neighborhood facilities would be to form a private homeowners' association that would own and maintain the facility. Multiple small districts like this would be a significant administrative burden to the city and detract from the city's core mission and goals. It would be prudent to evaluate the ongoing effectiveness of the district and explore alternative service delivery models.

#### KRAFTMAID SPECIAL IMPROVEMENT DISTRICT

In order to attract the KraftMaid cabinet factory to West Jordan, the city and the state offered incentives. The city's primary incentive involved the creation of an Economic Development Area (EDA) that commits tax increment revenues (increased amount of property taxes resulting from capital investment after the building was built and equipment installed) to pay for property assembly and certain improvements. The incentive, including improvements and land, were financed by issuing bonds in order to spread the cost out over a number of years.

The Special Improvement District (SID) was formed to guarantee and "back-stop" the bonds by creating assessments against the property to pay the debt service. Those assessments can be all or partially paid by surplus tax increment from the EDA (the amount of increment not needed to pay the EDA's commitments); from a schedule approved by the City Council, with a portion reimbursed from impact fees; and then from direct payments from Masco, the parent company. In fact, Masco has the ultimate responsibility to cover any outstanding debt requirement so city resources are not at risk. Bond payment schedules are found in the Debt Service Scheduled Payments chart in the Budget Appendix.

*Note:* The property and building were acquired by Boeing in 2012. The EDA incentive is substantially the same as before the acquisition. Amendments were made to the incentive documents to include Boeing in the chain of guarantees.

### MUNICIPAL BUILDING AUTHORITY

The Municipal Building Authority (MBA) is a specialized financing mechanism that allows the city to issue bonds for the construction of public facilities (in our case, City Hall, Fire Headquarters / Station 53 at Jordan Landing, and the public works complex). The bonds are collateralized by the commitment of lease payments under a master lease agreement from the city's General Fund and avoid the more problematic use of general obligation bonding. Bond payment schedules are found in the Debt Service Scheduled Payments chart in the Overview section of this document.

## CAPITAL SUPPORT FUND

The Capital Support Fund serves two key functions. The first is as a debt service fund to handle the funding and payments on general fund-related capital improvement bonding (roads, parks, and storm projects). The second is as a holding fund for surplus funds not already assigned to a specific capital fund.

## HUMAN RESOURCES DEPARTMENT

Employee Development & Relations	119
Recruiting & Retention	
Payroll & Benefits	
Risk Management	
Employee Insurance	124
Liability Management	125

### HUMAN RESOURCE/RISK MANAGEMENT DEPARTMENT

The mission of the HR/Risk Management Department is to promote a safe work environment and an atmosphere conducive to teamwork and high morale among city employees through effective recruitment, retention, recognition, employee benefits, and employee development programs.

The HR/Risk Management Department includes the following programs:

**Employee Development & Relations** – Oversee and coordinate employee relations programs that promote job satisfaction, training, and positive employee morale while ensuring the consistent city-wide application of personnel policies outlined in the *Employee Handbook*.

**Recruitment & Retention** – Provide effective recruiting and selection strategies to provide management with a timely and adequate pool of qualified applicants. Oversee the maintenance of the city's compensation and classification tables.

**Employee Benefits and Recognition** – Maintain a cost-effective and competitive employee benefits package by analyzing market trends and city funding to identify opportunities for cost savings and efficiency. Expand and promote the city wellness program to maximize employee knowledge and utilization of cost-effective treatments. Recognize and reward employees for their contributions and commitment to making the city a great place to work.

**Risk Management** – This program provides a systematic approach to protecting the city's financial, property and personnel assets from the possibility of accidental loss, injury and/or catastrophic destruction by consulting with departments to implement available methods including: training, preparation, investigation, insurance, engineering and risk transferring to fulfill the city's ultimate mission of service.

**Risk Management Fund** – The Risk Management fund provides the financial resources for purchasing insurance and maintaining funds necessary to fulfill the city's liability obligations.

# LEGAL DEPARTMENT

General Legal	
Litigation	
Prosecution	
Domestic Violence Unit	

#### **LEGAL DEPARTMENT**

The Legal Department provides timely and authoritative legal advice to the city and its officials; defends the city's legal rights, operations and interests; and prosecutes those who violate public policy, trust or the criminal code.

The Legal Department supports the City in the following areas:

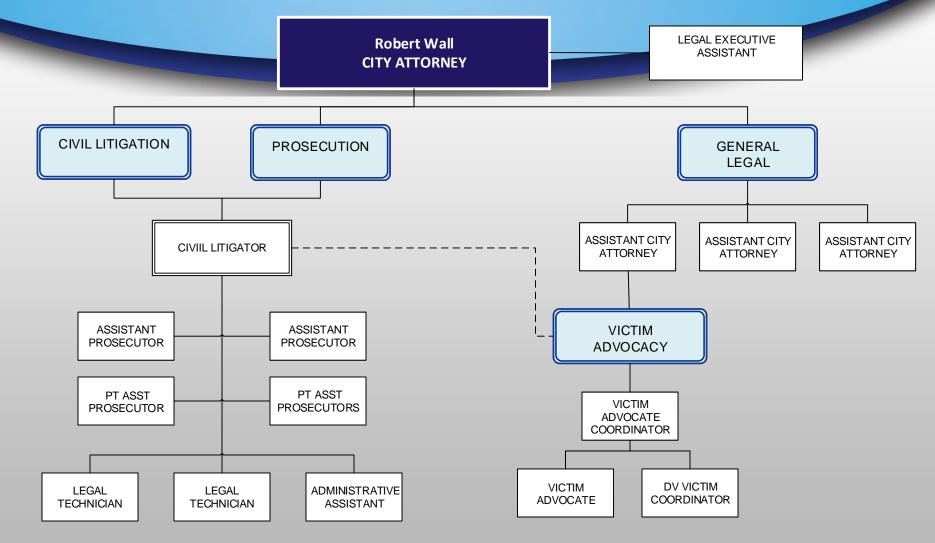

**General Legal** – Provides sound and current legal advice to city personnel, City Council, boards and commissions to ensure the legality, clarity and accuracy of the municipal code and to ensure compliance with contractual obligations.

**Litigation** – Maintains control over civil litigation, including defenses to asserted claims against the city, counter claims, and all strategies to ensure that outcomes are beneficial to the city and its citizens.

**Prosecution** – Protects the health, safety and welfare of the public through the prosecution of misdemeanor and infraction offenses within the jurisdiction of the West Jordan Prosecutor.

**Victim Assistance** – Provides immediate crisis response, safe shelter, court advocacy, emotional support, resources and referrals to victims of domestic violence as well as other violent crimes and/or critical incidents; and promote victim safety and offender accountability through the prosecution of domestic violence related crimes.

# COMMUNITY PRESERVATION DEPARTMENT

Code Enforcement	
Business Licensing	
Rental Property Licensing	

### **COMMUNITY PRESERVATION DEPARTMENT**

The Community Preservation Department assists in providing the citizens and businesses a friendly and attractive community in which to live and conduct business through the enforcement of the Municipal Codes and issuance of Business Licenses and the Good Landlord Program.

Community Development Block Grants provides services for low- and moderate-income residents with Federal entitlement grants as well as funding for area beautification projects.

The Community Preservation Department includes the following programs:

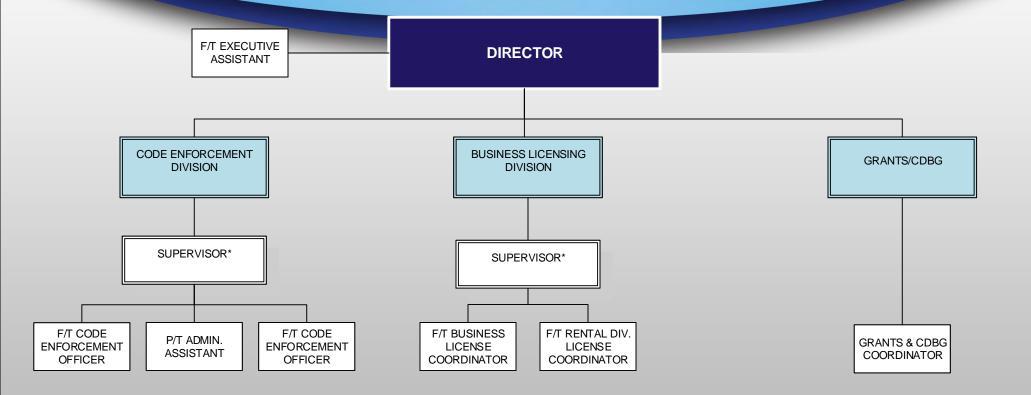

**Code Enforcement** – Obtain compliance with the Municipal Code by providing citizens and businesses guidance and direction for the resolution of problems and violations in a friendly, fair and impartial manner so that the citizens of West Jordan may enjoy a cleaner, safer and better place to live.

**Grants** – Responsible for accounting, planning and use of Federal entitlement programs including the Community Development Block Grant (CDBG), HOME and other funds. Serve as the primary contact for most grant activities for the city. Other grants and activities include fundraising and management of projects for signage along the Jordan River Trail and development of the Big Bend Habitat area.

**Business Licensing** – Any person or entity engaged in or carrying on a business within the city is required to obtain a business license. Business Licensing encourages and supports businesses in complying with state and city ordinances. The program also assists in enforcing civil and criminal actions brought against persons violating the city's licensing code. Business Licensing issues business licenses and collects all license fees and taxes. Business Licensing is intended to protect customers, neighboring businesses and residences from public health and safety issues and unfair business practices.

**Rental Dwelling Licensing** – The purpose of the Rental Dwelling program is to increase the desirability of living and working in West Jordan. Owners of rental properties located in West Jordan are required to obtain a Rental Dwelling Business License. Participation in the Good Landlord Program is voluntary. The Good Landlord Program encourages good rental practices that will result in better tenants, reduced crime and improved safety of our community.

\*The Community Preservation Department Director may act as the Supervisor of the Code Enforcement and/or Business Licensing Divisions.

# JUSTICE COURT

Functional Summary146
Justice Court147

## JUSTICE COURT

The West Jordan Justice Court provides the citizens with an open, fair, efficient and independent system for the advancement of justice under the law. The Justice Court is responsible for adjudicating infractions, Class C and Class B misdemeanor violations of state laws and city ordinances. The court also provides a small claims forum for civil disputes of \$11,000 or less.

# POLICE DEPARTMENT

Administration	154
General Investigations	155
Support Services	
Patrol	
Crossing Guards	
SWAT	
Animal Control	

#### **POLICE DEPARTMENT**

The Police Department provides quality community oriented policing through a partnership with the residents and businesses creating a safe and secure environment for living and working in the city.

The Police Department is responsible for law enforcement within the city and includes the following programs:

**Police Administration & Professional Standards Bureau** – Provide oversight, direction and review of the various programs in the Police Department for efficiency as well as responsiveness to the needs of our stakeholders. Ensure department and employee adherence to our code of ethics, department policy and the law. Provide training and operational guidance to employees.

Criminal Investigations, Special Operations, Problem Oriented Policing, Crime

**Prevention** – Provide investigative follow-up on criminal investigations; maintain a unit for Problem Oriented Policing that responds to unusual and or recurring problems and cases which may require unconventional remedies; sustain the crime prevention personnel to work with businesses and residents to increase safety and awareness; manage the team of volunteers who provide valuable hours of service for the department.

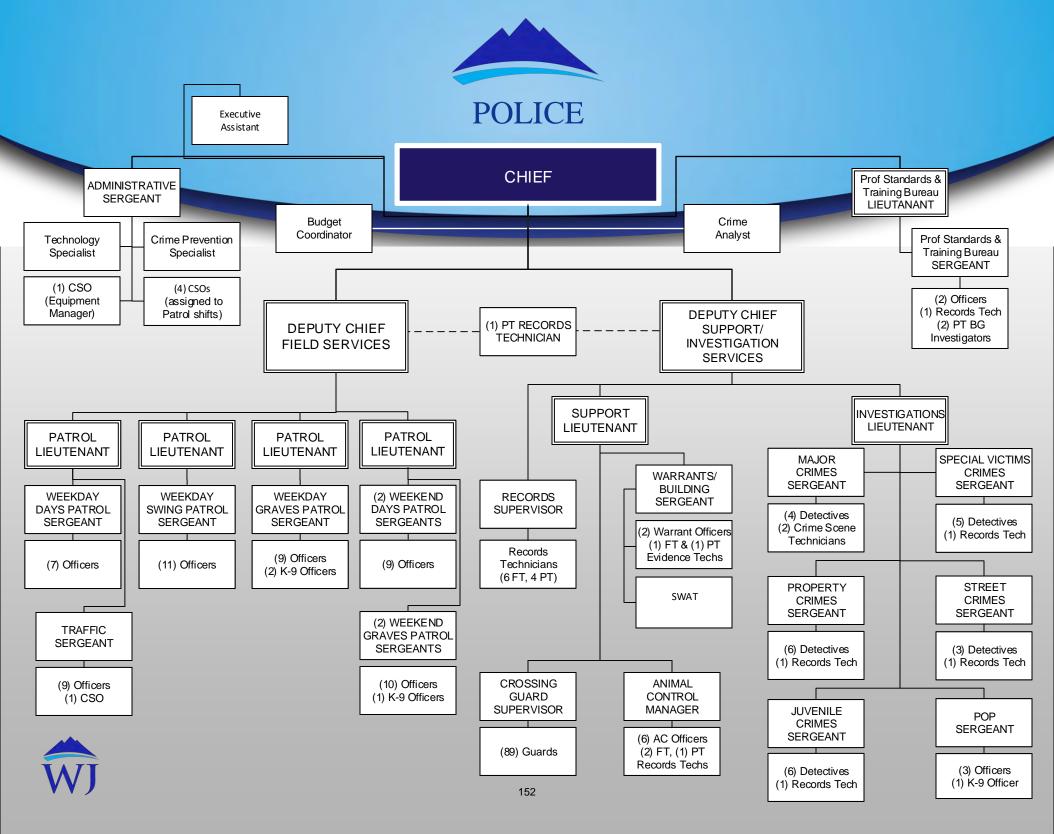

**Patrol Division: Patrol, K-9, Traffic, Community Service Officers** – Act as the first responding units to our residents and businesses, responding to calls for service and conducting preventative patrols; maintain a K-9 unit that specializes in suspect apprehension, officer protection, building clearing and narcotics detection; sustain a traffic unit that provides specialized enforcement of traffic laws with motor officers and other officers with advanced training in accident investigation and reconstruction; manage our Community Service Officers as civilian employees to handle less critical issues so sworn officers are available for priority service.

**Animal Control** – Ensure the humane treatment of pets and domestic animals in the city. Adoption, spay/neuter, vaccination, licensing and public education programs keep the public well-informed and both animals and citizens protected. This unit also serves as a contract provider of animal control services for the City of Murray.

**Support Services: Records, Security, Evidence, Warrants, SWAT** – Provide support services that allow sworn police officers to focus more time on detection, prevention of crime as well as that arrest of criminal violators. The records unit is responsible for data entry including reports, citations, scanning of documents, filing and collection of information for the National Incident Based Reporting System. Building Security provides security services to the Justice Center, including the Justice Court. The evidence unit is responsible for the lawful intake, documentation, categorization, storage, disposal, and release of evidence and property. The warrants unit is tasked with serving arrest warrants issued for individuals who are avoiding their responsibility to the court or who have not yet been apprehended for

criminal violations. Maintain a SWAT team that specializes in service of high-risk search warrants, apprehension of violent offenders, barricaded subjects and hostage rescue.

**Crossing Guards** – Protect children when they cross high traffic roadways while walking to or from school.

Heavy/Technical Rescue (Special Operations)	
Inter-Facility Transports	

### FIRE DEPARTMENT

The West Jordan Fire Department provides professional and efficient service to mitigate fire, medical and other risks to life and property, while enhancing public awareness and education through inspections and prevention programs.

The Fire Department includes the following programs:

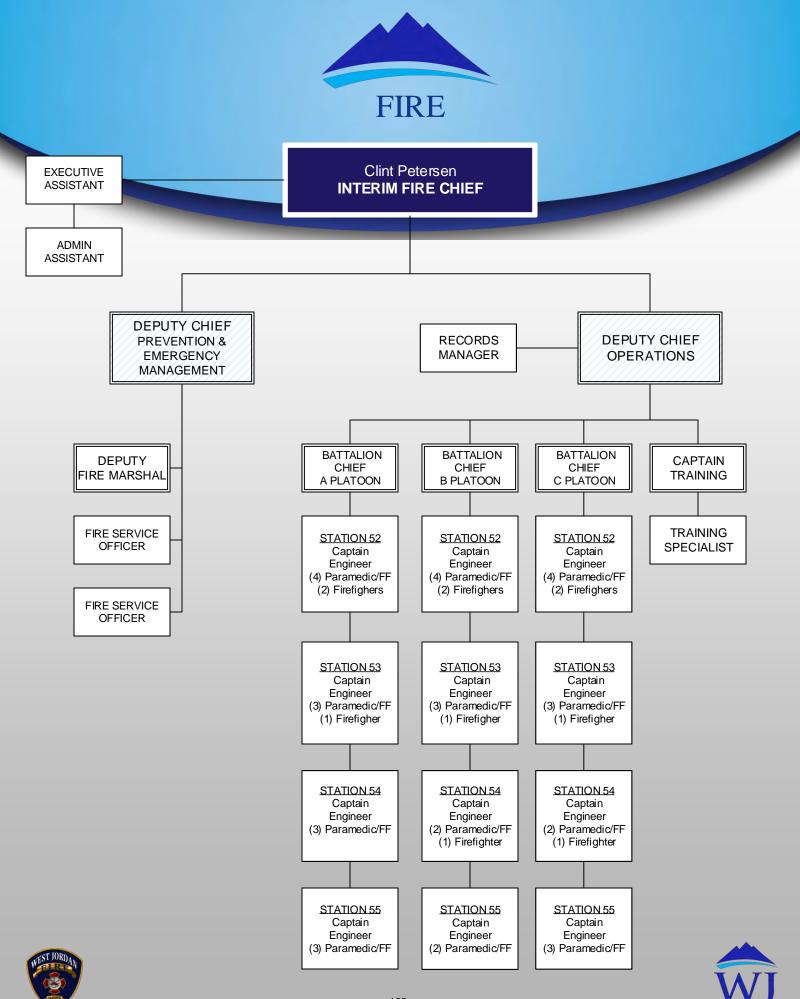

**Administration** – Provide overall vision, direction and accountability for all resources allocated to the Fire Department. This program includes the Fire Chief, fire and medical records management, personnel records, finance management and department level purchasing.

**Prevention, Emergency Management and Community Preparedness** – These programs enhance fire and life safety through prevention, enforcement and education programs and activities, including those duties of the Fire Marshal for plan review, inspection, testing and follow-up enforcement of the state adopted fire code. Public education is coordinated through the Office of the Fire Marshal and includes tours and public presentations. Through organized analysis, planning, decision-making and assignment of available resources we seek to mitigate, prepare for, respond to and recover from the effects of disasters created by all types of hazards.

**Operations, Suppression, Medical, Rescue** – Provide high-quality fire and medical services by properly training all firefighters in modern procedures. Based upon historical responses, the types of needed services include but are not limited to: fire suppression (residential, multi-family, commercial, industrial, vehicle and open lands); advanced and basic life support triage, treatment and transport; mass casualty; hazardous materials containment and mitigation.

**Hazardous Materials** – Provide highly trained Hazardous Materials Technicians to control, contain and mitigate all types of Haz-Mat incidents. Minimize the effects of a hazardous material release to the public and supervise its proper disposal.

**Heavy/Technical Rescue (Special Operations)** – Provide highly trained professional Technical Rescue Technicians to respond to and mitigate emergency incidents involving the following: vehicle extrication, trench rescue, confined space, structural collapse, rope rescue, machinery entrapment and swift water rescue.

### **DEVELOPMENT SERVICES DEPARTMENT**

The Development Services Department provides professional planning, engineering, building, and redevelopment services to improve the quality of life for the residents of West Jordan. The Development Services Department is committed to providing excellent customer service and helps the city achieve both long-term and short-term goals and objectives for management of growth and development.

The Development Services Department includes the following programs:

Administration & Project Management – Direct, coordinate and administrate various programs, duties and activities assigned to the department.

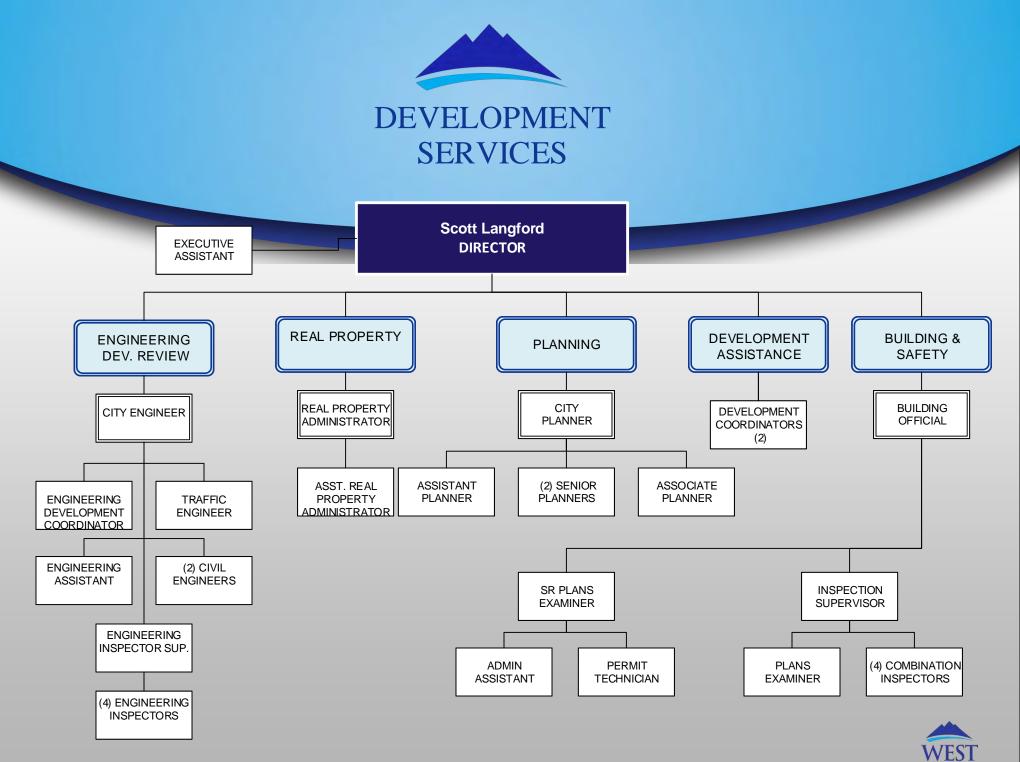

**Long-Range Planning** – Prepare and coordinate comprehensive planning activities to meet the demand for future growth, including being the lead on the city's Comprehensive General Plan and drafting new legislation and city ordinances to support the vision of the community.

Current Planning – Review new development for compliance with adopted plans and codes for the city.

**Building & Safety** – Enforce the requirements of state and city adopted International and National Building, Electrical, Plumbing, Mechanical, Fuel Gas, Energy, Accessibility, and Fire Codes to safeguard the public health, safety and general welfare of the community

**Development Engineering** – Review plans of new private development projects as it relates to engineering requirements and federal, state, and local codes and standards.

Real Property – Acquire, sell, lease, contract and manage all of the city's real property interests.

# ECONOMIC DEVELOPMENT DEPARTMENT

Economic Development	
Redevelopment Agency	
Economic Development Area	209
Community Development Area	220

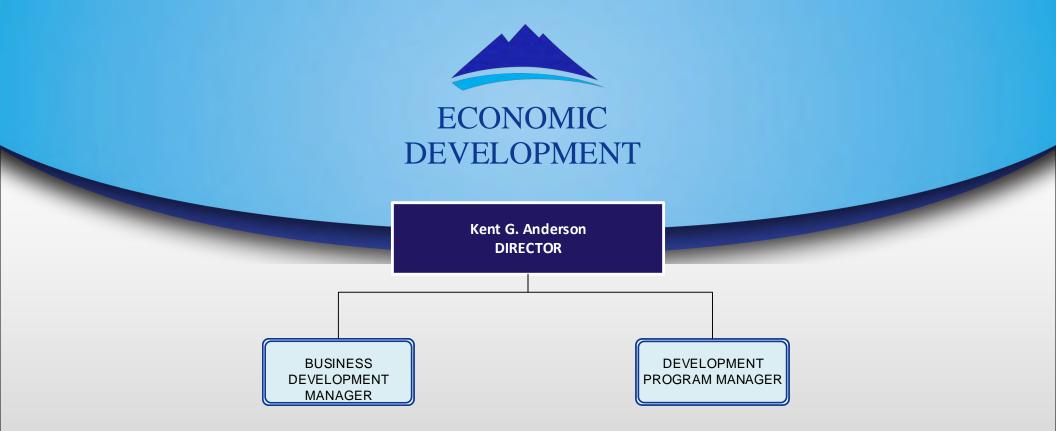

## ECONOMIC DEVELOPMENT DEPARTMENT

The Economic Development Department promotes expansion, diversification, and retention of existing businesses and recruits new businesses to the city to provide increased job opportunities and goods and services for the community.

The Economic Development Department includes the following programs:

**Economic Development** – Encourage the attraction of job creating businesses, development of infill parcels of land, development of new areas, increased retail activity and expansion of existing businesses in the City.

**Redevelopment Agency** – The Redevelopment Agency utilizes Tax Increment Financing (TIF) Districts to encourage economic development, job creation, business investment, and redevelopment of blighted areas within the city. To accomplish these goals, the agency can create a Community Reinvestment Area (CRA), which provides TIF funding to projects to offset some costs associated with development occurring in the project area boundaries.

## **REDEVELOPMENT AGENCY**

The Redevelopment Agency (RDA) utilizes Tax Increment Financing (TIF) Districts to encourage economic development, job growth, and urban renewal. To date, the RDA has adopted six urban renewal areas (URAs), five Economic Development Areas (EDAs), two Community Development Areas (CDA), and a Community Reinvestment Area (CRA). The governing board of Redevelopment Agency consists of the elected city council, in accordance with state statute. The RDA Board adopts the plans, policies, and budgets which are implemented by the agency.

Tax Increment Financing (TIF) is the use of new tax revenue to fund infrastructure, redevelopment, environmental remediation, or other improvements in urban renewal areas, economic development areas, community development areas, or community reinvestment areas. The use of tax increment must be approved by a committee representing affected property taxing entities or their governing bodies in the case of a CDA or CRA.

TIF districts pay for only a small fraction of costs related to the new developments they encourage. The RDA's share of development cost is paid through the use of tax increment financing. Property tax increment is the increase in property taxes, and in some cases, sales taxes generated in a project area over and above property taxes generated prior to the new development (base taxes). State statute does not allow base taxes to pay for project costs.

#### **Urban Renewal Areas**

An Urban Renewal Area (URA) was a tax increment district that was created to redevelop blighted areas within the city and attract new jobs into the area. The City of West Jordan currently has adopted six urban renewal areas which are actively contributing to the redevelopment of blighted areas.

Project #1: Town Center / Cantlon 6600 South-7000 South Redwood Road				
Project Area Created:	December 12, 1989			
TIF years allowed:	32 years max (through 2032)			
TIF first received:	2000			
Base Assessed Value, Real Property:	\$ 518,325			
2017 Assessed Value, Real Property:	\$40,194,238			
Total Value Added, Real Property:	\$39,675,913			

*Goal*: Area was established to remove blight and create a new retail center.

*Status*: Center has been developed. Current tenants include Target and Petco. High tenant vacancy may require additional action required by the RDA.

### Project #2: Industrial Park 1300 West 7800 South

Location:	1100 to 1500 West, 7800 to 8000 South
Project Area Created:	September 18, 1990
TIF years allowed:	32 years max (through 2034)
TIF first received:	2002
Base Assessed Value, Real Property:	\$ 2,905,573
2017 Assessed Value, Real Property:	\$16,796,164
Total Value Added, Real Property:	\$13,863,591

*Goal*: Removal of blight, public and private improvements to the 7800 South gateway and the adjacent Industrial park.

Status: Sidewalk and landscape improvements for 7800 South are completed.

Project #3: Southwire 3200-3600 West 8600 South					
Location:	3200 to 3600 West, 8600 South				
Project Area Created:	September 18, 1990				
TIF years allowed:	32				
TIF first received:	1994				
Base Assessed Value, Real Property:	\$8,165,006				
2017 Assessed Value, Real Property:	\$9,923,254				
Total Value Added, Real Property:	\$1,758,248				

Goal: Construction of 3200 West, incentive payment to Heber Rentals for roads and infrastructure.

*Status*: Final tax increment payment was paid to Heber Rentals in April 2014. The area boundary was amended in 2012 to remove the overlapping area from CDA #1 - Jordan Valley Station resulting in 30.97 acres for RDA #3.

# **ECONOMIC DEVELOPMENT AREA**

An Economic Development Area (EDA) was a tax increment district created to attract new jobs and capital investment. These were often used to recruit companies that were seeking to locate or expand in the western United States and were comparing locations and incentives. The City of West Jordan has utilized several economic development areas, which served a key role in attracting Oracle and Boeing to the City.

Incentives are provided as a percentage of the tax increment created by the development. When a company builds a new building, its "tax increment" is 100% of the assessed value of the new construction, subtracting the value of existing land and property, which is then multiplied by the property tax rate. If the tax rate is 1.2%, for example, a new \$1 million building would have an annual tax bill of \$12,000. The annual "tax increment" would be \$12,000.

An eight-member voting approval board, known as a Taxing Entity Committee, was appointed to review each EDA district. Each board had two members from the city, two from the county, two representatives from the local school board, one representative from the state school board, and one member representing the remaining local taxing agencies. Tax increment dollars are returned to the developer or company with an agreement to assist with infrastructure development, land acquisition, or other eligible project costs.

EDA Project #2: Bingham Business Park / KraftMaid				
Location:	10026 S Prosperity Road			
Project Area Created:	July 19, 2005			
TIF years allowed:	17 years max (2007 through 2023)			
TIF first received:	2007			
Base Assessed Value, Real Property:	\$ 124,356			
2017 Assessed Value, Real Property:	\$125,917,992			
Total Value Added, Real Property:	\$125,793,636			

Goal: Encourage and assist economic development of the area and installation of public infrastructure.

Status: The original KraftMaid building was constructed and related infrastructure work is complete. Boeing purchased the property in 2012 and has remodeled the facility, which is in full operation.

Provisions: 100% of tax increment revenue is captured for a period not to exceed 17 years. Revenues are used for repayment of tax-free and taxable bonds which were utilized for public and private improvements. Final debt service payment is scheduled for June 1, 2023.

EDA Project #5: Pioneer Technology Distric	:t
Location:	6400 West 9800 South
Project Area Created:	July 27, 2016
TIF years allowed:	N/A

*Status*: In anticipation of future growth in the southwestern part of the City, the Pioneer Technology District was established to help facilitate infrastructure development to attract a large employment center and new business investment to the City. While the project area has been adopted, a budget has yet to be adopted, and until such time, the area remains inactive.

### COMMUNITY DEVELOPMENT AREA - JORDAN VALLEY STATION

A Community Development Area (CDA) is a tax increment district created to assist with general economic development by assisting with the removal of unusual impediments to development.

CDA #1: Jordan Valley Station	
Location:	3295 West 9000 South
Project Area Created:	July 27, 2011
TIF years allowed:	20 years

*Goal:* Enhance housing and employment opportunities for community residents, improve access to goods and services for residents, increase and diversify the tax base, and to provide for a wider range of housing opportunities. These are implemented through the construction of on and off-site infrastructure including parking structures to support mixed uses, higher density, pedestrian environment and the use of multiple transportation modes.

*Status*: Construction has been completed on phase III and IV of the project, and it is expected that construction on phase V and VI will begin in 2019, when the Agency anticipates TIF payments will begin.

Entity	Maximum	Percent of Tax

## COMMUNITY REINVESTMENT AREA – 90<sup>TH</sup> & REDWOOD SHOPPING PLAZA #1

A Community Reinvestment Area (CRA) is a tax increment district created to assist in variety of economic development activities, including urban renewal, job creation, and attraction of new businesses and capital investment.

#### CRA #1: 90th & Redwood Shopping Plaza

Location:	9000 S Redwood Road
Project Area Created:	August 29, 2017
TIF years allowed:	20 Years

*Goal:* Increase the employment base within the City, improve access to goods and services for residents, and increase and diversify the tax base. This will be accomplished by the attraction of a large box retailer to the intersection of 9000 South and Redwood Road.

*Status*: Smith & Edwards held a grand opening for its West Jordan location on September 9, 2017. Since that time, the City has received interest from a variety other potential tenants in the area and is working with the development community to bring additional businesses to the area.

## PARKS DEPARTMENT

The Parks Department maintains and manages 970 acres of parks and open spaces including: regional parks, community parks, open spaces, trails, streetscapes and administrative properties.

The Parks Department includes the following programs:

**Parks Administration** – Provide leadership and supervision for the day-to-day activities and operation of the Parks Department.

**Parks, Trails, and City Property Landscape Maintenance** – Provide landscape maintenance of city parks and trails.

**Open Space Maintenance** – Provide landscape maintenance and weed management services for cityowned open spaces.

**Arterial Streetscape Maintenance** – Administer contracted landscape maintenance services for cityowned streetscapes on arterial and collector streets.

**Cemeteries** – Maintain aesthetically pleasing cemeteries for families and friends of the deceased while maintaining fiscal responsibility.

**Parks Snow Removal** – Provide frontline snow removal services alongside the Streets Department and provide snow removal for the many safe walking routes throughout the city.

**Special Projects** – Provide Parks Department services beyond the scope of routine maintenance at the direction of the City Manager and/or the Parks Director.

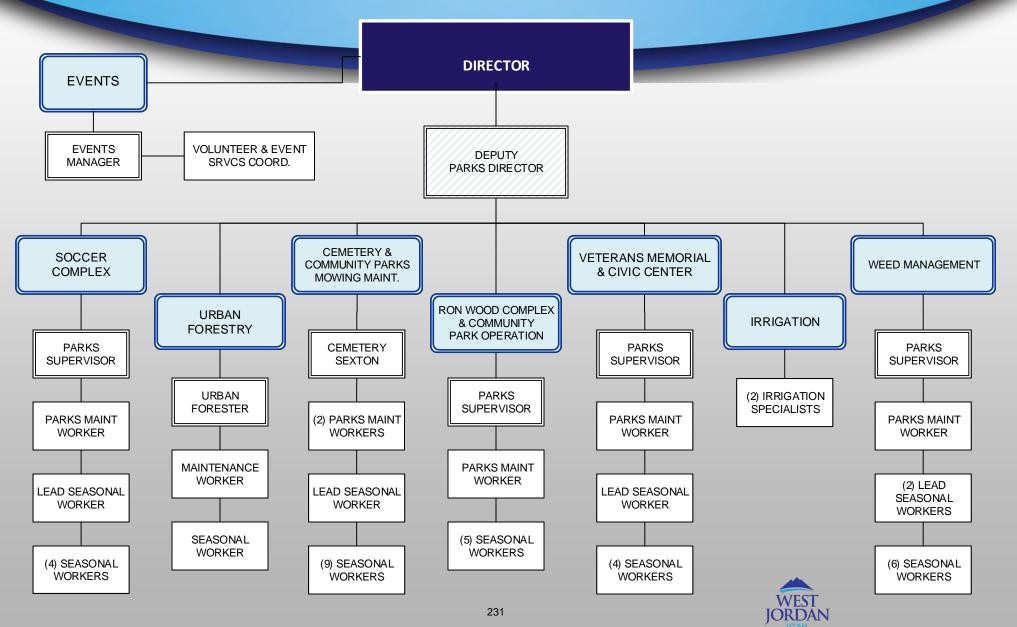

Athletic Fields – Provide fiscally responsible landscape maintenance of city athletic fields.

**Park Events** – Provide support to events that take place in city parks including city events, city-sponsored events and rentals.

**Events and Volunteer Support** – Organize and plan community events that bring people together to create a feeling of community well-being and provide opportunities for others from outside the city to discover the many things West Jordan has to offer. Support volunteers so they can fulfill City Council goals and objectives. Manage large park rentals, Pioneer Hall and other building rentals, sports/league reservations, and tournament reservations.

**July Activities, Rodeo & Motorsports** – The city has several volunteer-driven events including the Independence Day Festival, Western Stampede Rodeo and Demolition Derby. These events are primarily planned by volunteer committees and overseen by the Events Manager. These programs have a budget associated with them that is allocated from the General Fund and mixed with the direct revenues from the event such as ticket sales and sponsorships.

#### PUBLIC WORKS DEPARTMENT - ADMINISTRATION & ENGINEERING

The Public Works Department is based out of a new facility built in 2018, adjacent to the soccer complex at 7960 South 4000 West.

Administration & Engineering provides engineering planning, engineering review, construction of city funded projects, and roadway, wastewater, stormwater, and drinking water operations and maintenance functions related to the infrastructure of the city.

The Facilities, Electrical, and Fleet divisions are also part of this group. Facilities and Electrical maintains city buildings and structures, and keeps them in good operating condition. The Fleet Division manages the city's various vehicles from fire engines, to police cars, public works trucks, and all other city vehicles and motorized equipment.

The Public Services division operates and maintains the city's public streets and sidewalks. The Department also administers the solid waste function of the city through a contract with ACE Disposal.

Public Works Administration & Engineering includes the following programs:

**Administration** – Provide effective and timely direction, leadership and support to all Public Works divisions, managers and programs.

**GIS** – A geographic information system (GIS) integrates hardware, software and data for capturing, managing, analyzing and displaying all forms of geographically referenced information. Create, disseminate and maintain quality data sets and facilitate data exchange. GIS is also the program through which the Department manages its Asset Management Program which tracks all city infrastructure and the work completed on it and the funds expended on this infrastructure. GIS also manages the city's portion of the Blue Stakes utility location program.

**Utility Infrastructure & Resource Planning** – Provide master plan support and updates; budget development and strategic planning; asset identification and management for the city water, sewer and storm drain systems. Plan for the resources to meet culinary water use requirements, sewer treatment capacity, maintenances of water rights, and assist with stormwater regulation compliance.

**Capital Projects** – Provide citizens with cost-effective, professional design, survey and project management services that comply with city, state and federal requirements, with either in-house staff or outside consulting services. This includes all Capital Improvement Projects to enhance public health, safety and welfare for the water, sewer, storm drain, parks and transportation systems.

**Roads Capital Fund** – The Roads Capital Fund is used for road projects and receives funding from C-Road (State Gas Tax) shared revenues, the earmarked Telecommunications and Franchise taxes, and road impact fees from new development.

**Building Capital Fund** – Track and manage projects for the construction and rehabilitation of municipal buildings.

**C-Roads** – Provide services to build and maintain roads throughout the City of West Jordan. The program uses both in-house staff and outside contractors to perform overlays, chip sealing, slurry sealing, crack sealing, pothole repairs, roadway markings and signage, traffic signal repairs and maintenance, small concrete repairs and replacement, and manhole and valve concrete maintenance. By law, C-road funds must be used in accordance with regulations published by UDOT entitled *"Regulations Governing Class B & Class C Road Funds"* – April 29, 2009.

**Property** – Acquire, sell, lease, contract and manage all of the city's real property interests.

Facilities: Senior Center – Provide maintenance for the Senior Center.

**Facilities:** Special Projects – Projects of this type are those which might be directed by the City Council or to address problems that arise during the year which need to be addressed. These special projects are also projects approved through the Staff Supplemental Requests (Green Sheets) for the fiscal year.

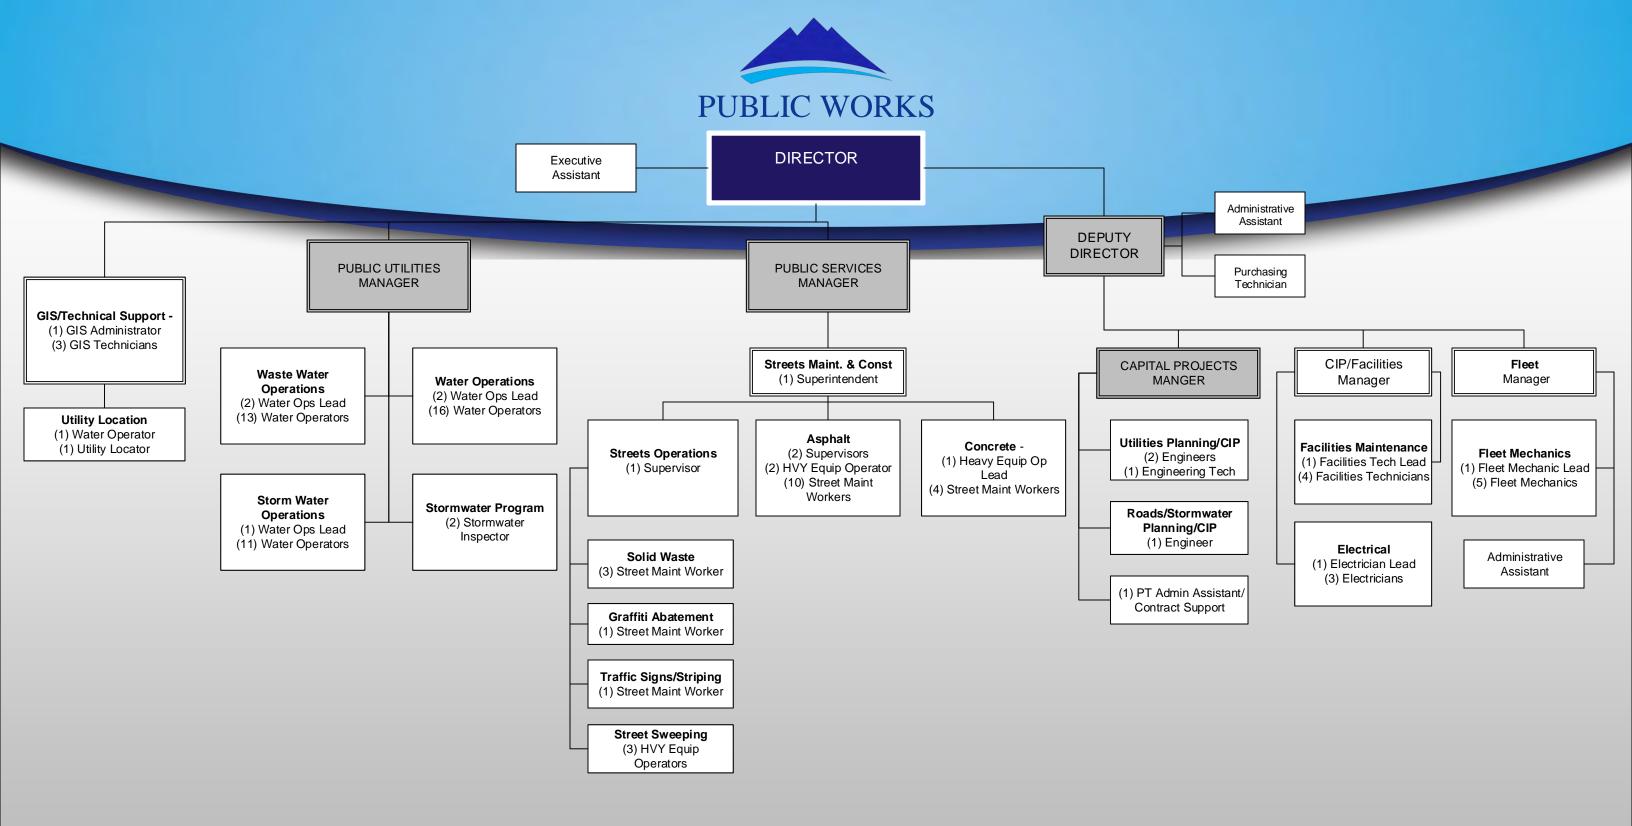

Fleet Fund – An internal service fund used to cover the costs of maintaining and repairing vehicles.

**Fleet Fund: Maintenance** – Provide preventative maintenance in order to reduce downtime, increase safety and longevity of the city's vehicles and equipment.

**Fleet Fund: Replacement & Surplus** – Provide for the monitoring and execution of the city's Fleet Replacement Program, including the purchasing of vehicles and equipment and the surplus of vehicles and equipment.

**Electricians** – Provide specialized electrical services for city facilities, water telemetry and control systems, and Parks Calsense controls. Electricians also supervise and manage the city's streetlight program.

**Roadway Maintenance** – Provide for the repair of city's asphalt roadways, including overlays, patching, and pothole repairs. This group also manages the concrete curb, gutters, and sidewalks, along with pedestrian ramps of the city. The group also maintains the signs, signals, striping, and graffiti abatement for the city.

#### **ROADS CAPITAL FUND**

The Roads Capital Fund receives funding from C-Road (State Gas Tax) shared revenues, the earmarked Telecommunications and Franchise taxes, and road impact fees from new development. Those funding sources are brought together in a single project fund to provide better tracking and accountability of projects actually constructed. The priority of projects is set through the Transportation Master Plan and the Strategic Plan process, along with the Safe Sidewalk Program and Intersection Signals Program priority selection process as adopted by the City Council. The Strategic Plan sets the financial constraints for the Road Capital Fund.

The Capital Projects Group in the Public Works Department is responsible for coordinating the design, construction, inspection, and contract administration for all road projects. These projects include new construction and major road maintenance projects.

### PARKS CAPITAL FUND

Projects for the acquisition and improvement of parks, open spaces, and trails in the city are tracked and managed through the Parks Capital Fund. Funding for these projects is a combination of general taxes (transfers from the General Fund) and new development impact fees. The priority of projects is set through the Parks Master Plan and the Strategic Plan process. The Strategic Plan sets the financial constraints for the Parks Capital Fund.

The Capital Projects Group in the Public Works Department is responsible for coordinating the design, construction, inspection, and contract administration for all parks projects. The Public Works Department works closely with the Parks Department in coordinating these projects.

### **BUILDING CAPITAL FUND**

Projects for the construction and rehabilitation of municipal buildings are tracked and managed through the Building Capital Fund. Funding for these projects is a combination of general taxes (transfers from the General Fund), voter-approved general obligation bonding/taxes, and from other user funds (water and sewer, for example).

The Capital Projects Group in the Public Works Department is responsible for coordinating the design, construction, inspection, and contract administration for all public building projects.

## PUBLIC WORKS DEPARTMENT - ENTERPRISE FUNDS

Enterprise Funds are not funded through taxes but through direct charges for the service provided. These funds are self-sustaining with their own revenue source – user fees. The funds must equal or exceed the cost it takes to operate and maintain them. The enterprise funds include water, sewer, solid waste, storm water and streetlights. Each enterprise fund operates separately – like a small business – and has its own revenues, expenses and fund balance.

**Water Fund: Operations** – Manage all aspects of the water system including administration, system adjustments, telemetry (SCADA) monitoring, water quality, repairs and replacements of infrastructure to address demands throughout the city.

**Water Fund: Special Projects** – Projects of this type are unknown projects at the time of creating the budget for the Water Fund for the current year. These are projects which might be directed by the City Council or problems that arise during the year which need to be addressed.

**Water Fund: Water Projects** – Projects for the construction of culinary water facilities are managed through the Water Capital Fund. Funding for these projects is a combination of funds from water rates and water impact fees. The Capital Projects Group in the Public Works Department is responsible for coordinating the design, construction, inspection, and contract administration for all water projects.

**Water Resources** – Promote effective use, maintenance and delivery of existing water resources, preserve water rights and promote the development of additional water resources.

**Wastewater: Operations** – Manage all aspects of the existing sanitary sewer system. Provide effective and timely system wide maintenance, including cleaning and video archiving of the city's sewer mains in an effort to prevent blockages and maintain an accurate representation of the system. Provide repair, rehabilitation and replacement services for damaged or substandard sewer infrastructure.

**Wastewater: Treatment** – Ensure that treatment of wastewater (sewage) is available and maintained to support the current and future needs of the city.

**Wastewater:** Special Projects – Provide Wastewater Division services beyond the scope of routine maintenance at the direction of the City Manager or City Council.

**Wastewater:** Sewer Projects – Projects for the construction of sewer facilities are tracked and managed through the Sewer Capital Fund. Funding for these projects is a combination of funds from sewer rates and sewer impact fees.

**Solid Waste Fund: Solid Waste** – Provide municipal solid waste management for the following: curbside household garbage, green waste, recycling collection, and the neighborhood clean-up dumpster program. The City also provides glass recycling and a quarterly e-waste and paper shredding event for the

residents. In addition, the fund provides services to deliver repair and maintain collection containers and provide education as it relates to solid waste.

**Stormwater: Operations** – Administer the stormwater program, which consists of regulatory compliance, maintenance of all gutters, grates, detention ponds, storm inlets, pipes, culverts and any drainage system used to collect rainwater and snowmelt and then deliver it to appropriate streams in order to prevent flooding and property damage throughout the city. The program regularly sweeps nearly 900 lane miles of city streets to prevent debris from entering the stormwater system and creating blockages, which can result in flooding. It provides routine inspection and maintenance including cleaning and video archiving of the city's storm drains in an effort to maintain system efficiency and prevent blockages. Provide repair and replacement services for substandard storm drain infrastructure.

**Stormwater: Special Projects** – Provide Stormwater Division services beyond the scope of routine maintenance at the direction of the City Manager.

**Stormwater: Projects** – Projects for the construction of stormwater facilities are tracked and managed through the Storm Drain Capital Fund. Funding for these projects is a combination of funds from storm water rates and stormwater impact fees.

## WATER FUND

The Water Fund is an Enterprise Fund, implying that (1) the activities of the water fund are not funded through taxes but through direct charges for service (commodity) provided; and (2) the water activity is completely self-supporting. The city buys approximately 85% of its wholesale treated water from the Jordan Valley Water Conservancy District. The remaining approximately 15% comes from culinary-quality wells (limited treatment required) in the southwestern quadrant of the city. The various programs of the Water Division provide for the operation and maintenance of water production, storage, and distribution; water accountability and billing; water conservation; new water resource development; and construction of new infrastructure.

## WASTEWATER FUND

The Wastewater Fund is an Enterprise Fund, implying that (1) the activities of the wastewater fund are not funded through taxes but through direct charges for service provided; and (2) the wastewater activity is completely self-supporting. The Wastewater Division is responsible for the collection of wastewater and its delivery to the South Valley Water Reclamation Facility for treatment and release. The division constructs and repairs infrastructure, and also monitors and manages the city's ownership interest in the regional treatment plant.

### SOLID WASTE FUND

The Solid Waste Fund is an Enterprise Fund, implying that (1) the activities of the solid waste fund are not funded through taxes but through direct charges for services provided; and (2) the solid waste activity is completely self-supporting. The city manages a standard three-can system. The typical setup includes one 95-gallon container for general solid waste (trash); one 95-gallon container for green waste (grass clippings, vegetative waste, etc.) that can be composted for reuse; and a 65-gallon container for recycling (approved plastics, glass, metals and papers). The city owns and maintains the containers, and contracts for collection, recycling, and landfill. We currently contract with ACE Disposal for collection and recycling, and are a member agency of the Trans-Jordan Landfill. West Jordan has also implemented a quarterly e-waste and document shredding service for the residents and employees of West Jordan for no additional cost.

## **STORMWATER FUND**

The Stormwater Fund is an Enterprise Fund, implying that (1) the activities of the stormwater fund are not funded through taxes but through direct charges for services provided; and (2) the stormwater activity is completely self-supporting. The Storm Water system consists of all gutters, grates, detention ponds, storm inlets, pipes, culverts and any drainage system used to collect rainwater and snowmelt, and deliver it to appropriate streams in order to prevent flooding and property damage throughout the city.

All residents and businesses in West Jordan benefit from the citywide Storm Water system. If the system did not exist, roads throughout the city would become flooded after every rainstorm and travel would be impeded. All residents and business pay a stormwater fee to equitably apply the costs of the system operations and maintenance to those who benefit from this citywide system.

### FLEET FUND

The Fleet Fund is an internal service fund, which means that it is funded through charges to using departments within the city. Departments are charged the costs of maintaining and repairing vehicles, and pay an annual assessment toward the replacement of their vehicles at the end of the useful lives.

FLEET FUND REVENUES		AUDITED ACTUAL	ADJUSTED BUDGET	YEAR-END ESTIMATE	ADOPTED BUDGET

# **Budget Process Overview**

#### Legal Requirements

Budgetary procedures for the city have been established by Utah State Statute. In accordance with state law, all appropriations lapse at the end of the budget year. However, unexpended capital projects may be reappropriated. Following are the legal procedures followed by the city:

On or before the first regularly scheduled meeting of the City Council in May, the City Manager submits a proposed operating budget for all Governmental Funds and an operating and capital budget for all Proprietary Funds for the subsequent fiscal year.

A public hearing is held to receive input on all aspects of the tentative budget. The hearing is preceded by a notice in the local newspaper. The notice must be given at least seven days before the hearing and includes the time, date and place of the hearing. All budget documents are required to be available for public inspection ten days prior to the public hearing.

On or before June 30, a final balanced budget must be adopted for the subsequent fiscal year beginning July 1. If a tax increase is proposed, a Truth-in- Taxation hearing must be held in August on a date specified by the Salt Lake County Auditor. At this time the final balanced budget is adopted.

The City Manager, acting as the Budget Officer, has the authority to transfer budget appropriations between individual line items within any department of any budgetary fund.

The City Council, by resolution, has the authority to transfer budget appropriations between budgetary funds or between the individual departments of any budgetary fund.

Public hearing must be held to increase the total appropriations of any Governmental Fund. However, after the original public hearing, operating and capital budgets of Proprietary Funds may be increased by resolution without an additional hearing.

The appropriate director or department head is the authorized officer charged with the responsibility of staying within the department budget and authorizing no expenditures in excess of said budget as required by the Utah Fiscal Procedures Act.

Monthly financial reports are prepared by the Director of Finance for the City Manager. The reports are also presented to the City Council. These reports contain a budgetary statement showing a comparison of budget to actual for all budgetary funds of the city.

Utah State law prohibits the appropriation of unrestricted General Fund balance until it exceeds 5% of the sum of General Fund revenues. Until unrestricted fund balance is greater than the above amount, it cannot be appropriated, but is used to provide working capital until tax revenue is received, meet emergency expenditures, and cover unanticipated deficits. When unrestricted fund balance is greater than 18% of the sum of expected General Fund revenues, the excess must be appropriated within the following two years.

#### **Basis of Budgeting**

The basis of budgeting applied to each fund budget is, in general, the same as the basis of accounting applied to the related fund's financial statements. Governmental Fund types (General Fund, Capital Projects Funds, and Special Revenue Funds) use the modified accrual basis of accounting and Proprietary Fund types (Enterprise Funds and Internal Service Funds) use the accrual basis of accounting. For the Proprietary Fund types, the basis of budgeting differs from the basis of accounting in that capital expenditures are treated the same as in the Governmental Fund types.

### BUDGET PROCESS AND CALENDAR FISCAL YEAR 2018-2019

January 26	City Council and Staff Strategic Planning Session.
February 16	Council members submit preferences for Budget Committee assignments.
February 20	Department heads present FY 2018-2019 supplemental requests (aka "Green Sheets") to the Budget Officer.
February 20	Department heads present FY 2018-2019 revenue budget proposals to the Budget Officer.
March 12	Department heads present FY 2018-2019 expenditure budget proposals to the Budget Officer.
March 26	Budget Officer and Department heads generate FY 2017-2018 year-end estimates.
April 24	City Manager presents the City Manager's FY 2018-2019 Proposed Budget to the City Council Budget Committees.
April 23 - May 23	Budget Committee Meetings.
May 9	City Council adopts the Tentative Budget.
May 23	City Council holds a public hearing on the Tentative Budget.
June 6	City Council reviews the Tentative Budget.
June 13	City Council holds a public hearing on the Tentative Budget and states the intent to exceed the certified property tax rate.
July 11	City Council reviews the Tentative Budget.
July 25	City Council reviews the Tentative Budget.
August 1	City Council reviews the Tentative Budget.
August 8	City Council reviews the Tentative Budget.
August 14	City Council holds a Truth-in-Taxation hearing, has final discussions on budget issues, adopts the Final Budget, and sets the property tax rate.
November 14	City Manager presents the approved Budget Document to the City Council.

## **Budget Preparation Policy**

- a) On or before February 1<sup>st</sup> of each year, the city manager shall meet with the City Council and review the city's strategic plan, budget goals and policies.
- b) The following policies shall be in effect in preparing the city manager's proposed budget and in administering the finally adopted budget thereafter:
- 1. The burden of financing city government should, with reasonable deviations, be financed in accordance with the basic principle of "benefits received."
- 2. As a general principle, the broad group of basic services rendered to the general public, such as police and fire protection, streets and parks, should be financed from revenues imposed on the broad general public, as through property taxes and sales taxes, franchise taxes or other broad-based taxes. The cost of increased demand on these services due to new development should be financed through the collection of development impact fees.
- 3. Special services rendered to special groups of citizens (whether individual or business groups) should be financed by special fees or assessments. Examples are: a) special improvements to private property, paid for by abutting property owners; b) regulatory license fees and permits imposed on individual businesses; c) planning and permit fees imposed for planning and zoning services rendered for the benefit of real estate developers and individual home builders.
- 4. The city should seek to maintain stable tax rates for taxes imposed on the broad general public. As a general rule, growth or decline in population and new businesses should produce revenue increases or decreases approximately equal to the changing cost of existing services. As a guiding principle, therefore, the rate of property taxes or sales taxes or franchise taxes should not be increased or decreased unless inflation or deflation has clearly changed operation costs faster than the natural changes in the tax base or changed levels of services are commenced.
- 5. The city will estimate its annual revenues in all budgeted funds by an objective, analytical process; conservative estimates will be utilized.
- 6. The city will maintain a forward moving projection of revenues for a three-year period in its principal operating funds. Each existing and potential revenue source will be reexamined annually and may be adjusted based on current experience concurrent with midyear budget adjustments.
- 7. The city will utilize one-time or special-purpose revenues (such as program grants) for capital expenditures or for specific expenditures required by the terms of the grant, and not to subsidize recurring personnel and operation and maintenance cost, except where application of these added capital projects would result in increased operating costs.
- 8. Special fees, assessments, or user-type charges imposed to assist in financing activities in the city's general fund, which benefit special segments of the broad general public, shall be established at a level closely related to the cost of providing the relevant services.
- 9. Each year the city shall recalculate the full costs of activities supported by special fees or charges to identify the impact of inflation/deflation and other cost modifiers; such fees or charges will be adjusted to compensate for related cost changes.

- 10. The city shall actively seek all available grant and supplementary funding for operating or capital purposes in any fund.
- 11. A minimum 5% fund balance for restricted use, as required by law, with a desired target minimum of 10%, and a maximum of 18%, shall be permitted to accumulate in the city's general fund for the following purposes: To provide sufficient working capital; serve as a cushion or reserve if ever needed to absorb emergencies, such as a fire, flood, or earthquake; or to cover any unanticipated deficit, resulting from a shortfall in actual revenues in a given budget year. Emergency spending shall comply with ordinance and policies adopted by the City Council.
- 12. Each department expenditure budget shall be prepared on the basis of true economic need and without regard for providing contingency within each department. Estimating budget expenditures shall be conservative and tight.
- 13. In case budget estimates prove high or low, future adjustments will be made without prejudice.
- 14. Each tentative budget may contain a general contingency in the City Council account. In administering the general contingency, the city manager may distribute up to 50% of the total amount budgeted for general contingency using his best professional judgment, without the consent of the City Council. He shall make at least a quarterly report to the City Council of contingency distributions. Any single distribution of the general contingency in excess of \$10,000.00 shall have the consent of the council prior to the distribution. The second 50% of the general contingency, or any portion thereof, shall be distributed only with the consent of the City Council.
- 15. Unless otherwise directed by the City Council in the pre-February 1st planning meeting, the city manager's proposed budget shall be prepared to continue providing the same level of service as was provided in the previous budget year.
- 16. The priorities of the strategic plan shall be provided for, as far as resources will allow.
- 17. Any proposals for increasing the full-time staff will be specifically called out in both the proposed department budget and in the budget message.
- 18. The city manager's proposed budget shall comply with the present pay policy of the city and the city manager shall submit to the City Council the amounts of funding which will be allocated for market adjustments, reclassifications, and cost of living adjustments within the amount designated for employee compensation adjustments.
- 19. Proposals for capital projects shall comply with the adopted Capital Projects Plan.
- 20. Funds allocated for capital projects which are not disbursed during a fiscal year, because the capital project is incomplete, shall be reserved for the same capital project in the budget of the following fiscal year.
- 21. Class C road moneys shall be budgeted exclusively for major maintenance, overlays, new construction of roads and items directly related to the same.
- 22. The fee rates of the enterprise funds shall be examined each year to ensure that revenues reasonably relate to necessary expenditures.

- 23. The city manager shall endeavor to place an amount of sales tax, at least equal to 25% of all general fund property taxes assessed, exclusively for the purpose of funding capital projects not already funded from other allocable fees and taxes.
- c) On or before the first regularly scheduled meeting of the City Council in May of each year, the city manager shall prepare for the ensuing year, on forms acceptable to the state auditor, and file with the City Council, the city manager's proposed budget for each fund for which a budget is required. The city manager's proposed budget of each fund shall set forth in tabular form:
  - 1. Actual revenues and expenditures in the last completed fiscal year;
  - 2. Budget amounts for the current fiscal year;
  - 3. Actual revenues and expenditures for a period of five to nine months, as appropriate, of the current fiscal year.
  - 4. Estimated total revenue and expenditures to complete the current fiscal year;
  - 5. The estimates of revenues and expenditure for the next upcoming year, computed in the following manner:
    - i. The city manager shall estimate, on the basis of demonstrated need, the expenditures for the budget year after a review of the budget requests and estimates of the department heads. Each department head shall be heard by the city manager prior to making of his final estimates, but thereafter he may revise any department's estimate, as he deems advisable for the purpose of presenting the budget to the City Council.
    - ii. The city manager shall estimate the amount of revenue available to serve the needs of each fund, estimate the portion to be derived from each revenue source. Should such total revenue show a surplus to the projected expenditures, the city manager shall provide recommendations to deal with that excess, to include options for reduction of property and franchise tax and potential impact of each recommendation.
  - d. Each city manager's proposed budget, when filed with the City Council, shall contain the estimates of expenditures submitted by department heads, together with specific work programs and such other supporting data as state statute or the City Council may request. The City Manager may submit a supplementary estimate of all capital projects which each department head believes should be undertaken within the next three succeeding years.
  - e. Each city manager's proposed budget, submitted to the City Council shall be accompanied by a budget message, which shall explain the budget, contain an outline of the proposed financial policies of the city for the budget year, and shall describe in connection therewith the important features of the budgetary plan. It shall set forth the reasons for salient changes from the previous year in appropriation and revenue items and shall explain any major changes in financial policy.
  - f. The city manager shall require all expenditures by any department to conform to the departmental budget.
  - g. To implement the system of budget control, including use of the encumbrance system, the city manager shall keep separate accounts for the items of appropriation contained in the budget of each applicable fund, each of which shall show the amount of the appropriation, the recorded expenditures, the unexpended balance, the recorded encumbrances, and the unencumbered and no expenditure shall be made against any departmental appropriation unless there is sufficient encumbered balance in the department's appropriation, except in cases of emergency as provided in this chapter. [A10-6-111, UC]

Section 2-7-203 Adoptions of tentative budget, preparation of final budget and public hearings.

- a) After each city manager's proposed budget has been submitted to the City Council, it shall be reviewed, considered or amended, and adopted as the City Council's tentative budget. This may take place in any regular meeting or special meeting called for that purpose. Prior to its adoption, it may be amended or revised in such manner as is deemed advisable by the City Council prior to public hearings.
- b) No appropriation required for debt retirement and interest or otherwise required by law or ordinance may be reduced below the minimum so required.
- c) At the meeting at which each tentative budget is adopted, the City Council shall establish the time and place of a public hearing to consider its adoption as a final budget and shall order that notice be published at least seven days prior to the hearing in at least one issue of a newspaper of general circulation published in the county. If there is no such newspaper, the notice required by this section may be posted in three public places within the city.
- d) Each tentative budget adopted by the City Council and all supporting schedules and data shall be a public record in the office of the city clerk and shall be available for public inspection at least 10 days prior to the adoption of a final budget.
- e) At the time and place advertised, or at any time and place to which the public hearing may be adjourned, the City Council shall hold a public hearing on the budgets tentatively adopted. All interested persons in attendance shall be given an opportunity to be heard, for or against, the estimates of revenue and expenditures or any item thereof in the tentative budget of any fund.

# **Budget Glossary**

The Annual Budget contains specialized and technical terminology that may be unique to public finance and budgeting. A budget glossary is included to help understand these terms.

*Accountability Center*: A comprehensive grouping of responsibility for each Department, including both operations and any support or custodial funds assigned to that Department.

*Appropriation*: An authorization made by the City Council which permits the city to incur obligations and to make expenditures of resources.

*Employee Benefits*: Payments made on behalf of employees for such items as retirement and health insurance.

**Budget**: Financial plan for a specified period of time (typically a "fiscal" year running from July 1st of one year through June 30th of the next) that matches all estimated revenues and appropriation of expenditures for various municipal services. By state law, the budget must balance.

**Budget Amendment**: Budgets are estimates, and therefore, from time to time it may be necessary to amend the city's budget. City budgets can and should be amended if it is apparent that expenditures are going to exceed the budget for any reason. Budgets can be amended as late as the last day of the fiscal year. A budget is also an appropriation of funds. Therefore, it is not permissible to amend the budget after the fiscal year has ended.

*Budget Calendar*: The schedule of key dates or milestones which the city departments follow in the preparation, adoption, and administration of the budget.

*Budget Message*: The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and the views and recommendations of the City Manager.

*Capital Projects and Funds*: Capital projects involve the construction of infrastructure and facilities that are typically high cost and long term. The Capital Projects Funds are used to account for the financial resources used in the acquisition or construction of the major capital facilities of the city other than those financed by the proprietary funds.

*Capital Outlay*: Capital Outlay is the portion of the annual operating budget that appropriates funds for the purchase of capital equipment items such as: machinery, automobiles, heavy equipment and special tools. These items are usually distinguished from operating items according to their value and projected useful life.

*Capital Strategic Plan*: A system of identifying future infrastructure needs, assigning priorities, and planning resources to complete capital projects.

*Certified Tax Rate*: The rate of tax to be levied and collected upon the assessed valuation of all property.

Charges and Services: Expenditures for such items as utility costs and contractual agreements.

CIP: Abbreviation for Capital Improvements Project. Projects are described in the Capital Strategic Plan.

*Contingency*: Funds budgeted for unknown or unexpected expenditures during the budget year.

*Debt Service*: The city's obligation to pay the principal and interest of all bonds and other debt instruments according to a predetermined payment schedule.

**Department**: A major administrative division of the city which indicates overall management responsibility for an operation or group of related programs within a functional area.

Disbursement: Payment for goods and services in cash or by check.

*Encumbrance*: The commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.

*Enterprise Fund*: Governmental accounting fund in which the services provided are financed and operated similarly to those of a private business. The rate schedules for these services are established to ensure that revenues are adequate to meet all necessary expenditures. City of West Jordan enterprise funds are established for services such as water, sewer, and solid waste.

*Estimated Revenue*: The amount of projected revenue to be collected during the fiscal year. The amount of revenue appropriated is the amount approved by the City Council.

*Expenditure*: This term refers to the outflow of funds paid or to be paid for an asset obtained or goods and services obtained regardless of when the expense is actually paid. This term applies to all funds. *Note: An encumbrance is not expenditure. An encumbrance reserves funds to be expended.* 

*Expenses*: Charges incurred (whether paid immediately or unpaid) for operation, maintenance, interest and other charges.

*Fiscal Year*: The 12-month period designated by the State Code signifying the beginning and ending period for recording financial transactions.

*Fiscal Sustainability*: The ability of the city to create and maintain service levels by the long-range balancing and management of resources and costs.

*Fixed Assets*: Assets of long-term character which are intended to continue to be held or used such as land, buildings, machinery, furniture and other equipment.

*Fund*: An accounting entity that has a set of self-balancing accounts and that records all financial transactions for specific activities or government functions.

*Fund Balance*: Fund balance is the excess of assets over liabilities.

*General Fund*: The General Fund is the primary operating fund of the city. It is used to account for all financial resources except those required to be accounted for in another fund. Administrative services rendered to other funds are charged to such funds and are shown as charges for services.

*Governmental Fund Type*: This type of fund is used to account for activities usually associated with a typical state or local government's operations. The measurement of activity is on current financial resources for sources and uses of funds.

*Grant*: A contribution by a government or other organization to support a particular function. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

Interfund Transfers: Amounts transferred from one fund to another.

Intergovernmental Revenue: Revenue received from another government for a specified purpose.

*Internal Service Fund*: Funds used to account for the financing of goods or services provided by one department to another department on a cost reimbursement basis.

Levy: To impose taxes, special assessments, or service charges for the support of city activities.

*Line-Item Budget*: Budget that lists each expenditure category (salary, materials, telephone service, travel, etc.) separately along with the dollar amount budgeted for each specified category.

*Maintenance Level Budget*: Funds budgeted to maintain services and programs at present levels. *Municipal Building Authority*: The Municipal Building Authority (MBA) is a separate legal entity and is reported as a Capital Projects Fund. The MBA was established to finance and construct municipal buildings that are then leased to the city. The City Council serves as the board of trustees for the MBA and therefore the MBA is reported as if it were part of the primary government.

*Non-Departmental*: Expenditures items in the General Fund that are not related to a specific department.

**Operating and Maintenance Supplies (O&M):** Expenditures for goods and services used in day-to-day operations such as office supplies.

*Operating Budget*: The portion of the budget that pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, supplies, utilities, materials, travel and fuel.

*Operating Expenditure (Expense)*: Expenditures incurred in day-to-day operations including operating and maintenance supplies, travel and education, charges and services, data processing and other operating expense.

*Operations Strategic Plan*: A fiscally balanced assignment and long-range plan of resources to accomplish operational (as opposed to capital) goals of the city.

**Program**: Activities, operations or organizational units directed to attaining specific purposes or objectives. At the program level, work plans are developed, resources are allocated, and performance measurements defined and reported.

*Program Budget*: A budget that focuses on discrete, complementary work units rather than larger organizational units or object classes of expenditure in order to facilitate cost analysis, accountability, and decision making.

**Property Tax:** Taxes levied on real and personal property according to the property's assessed value.

*Salary Range*: The lower and upper limits of salary for each authorized employment position ranked according to difficulty of services performed. Advancement within a range occurs at periodic intervals (usually annual) based on merit.

**Redevelopment Agency**: The Redevelopment Agency was legally created as authorized by the Utah Neighborhood Development Act. The City Council is designated by ordinance as the governing body of the Agency. Therefore, the Agency is part of the reporting entity and is reported as a Special Revenue Fund. **Reserve**: An account used to indicate that portion of a fund's balance that is legally restricted for a specific purpose and is, therefore, not available for general appropriation.

*Revenue*: Funds that the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

*Risk Management*: An organized approach to identifying, reducing, funding, and transferring risk and liability.

Salaries: Payments made to employees for services rendered.

Source of Revenue: Revenues are classified according to their source or point of origin.

*Step*: Within a salary range, the level of pay earned by an employee.

*Support Funds*: Funds created to support operational funds. May include purposes such as debt service, future asset replacement, contingency reserves, etc.

*Tax Increment*: The difference between the amount of property tax revenue generated from the current assessed value of property within a redevelopment area, economic development area, or community development area from the amount of tax revenue generated from the assessed value of property in the year the redevelopment area, economic development area, or community development area was created.

*Tax Increment Financing (TIF)*: The use of tax increment monies to fund infrastructure or other improvements in redevelopment areas, economic development areas, or community development areas.

*Transfers to Other Funds*: Move money to another fund in order to assist that fund in meeting operational or special project costs.

*Transparency*: Gathering, organizing, reporting, and creating open access to data and information that is critical to the understanding, evaluation, and decision making for the internal organization and external parties, particularly the citizen community.

*Unencumbered Balance*: Amount of an appropriation that is either expended or encumbered.

The Development Services Department (pictured) provides professional planning, engineering, building, real estate, and redevelopment services to improve the quality of life for the residents of West Jordan. The City Manager chose to spotlight this department for their continued excellent customer service as they strive to help the city achieve both long-term and short-term goals and objectives for management of growth and development.
